

I want to express my support for XM radio and their ability to provide extended services such as traffic and weather. I am a 80 mile a day round trip commuter in PHX AZ and was excited to hear that this service was available. This is a paid service and I applaud XM radio for continuing to offer value added services to enhance their programming. I subscribed to this service for the right to get features that enhance it's value and this is a great feature that should not be taken away.

Respectfully,  
Mark A. Klewin  
Mesa, AZ
